## HERITAGE® 30 HERITAGE® 50 HERITAGE® XL VINTAGE

Heritage 50 and 30 laminated fiberglass asphalt shingles are recognized throughout the industry for quality, beauty, and performance. Available both in standard and metric sizes, come in a variety of color options and are backed by a 30- or 50-year limited warranty and a 10-year algae relief - algae cleaning limited warranty.

Heritage XL shingles are laminated shingles featuring a wider-cut sawtooth design to create a unique look, expansive color beauty, with a 40-year limited warranty and a 10-year algae relief - algae cleaning limited warranty.

Heritage Vintage shingles are laminated shingles cut to feature naturally deep shadow lines to portray the look of real wood shakes, with a 50-year limited warranty and a 10-year algae relief - algae cleaning limited warranty.

**TAMKO GLASS-SEAL® and ELITE GLASS-SEAL® 3-tab shingles** will give you years of protection with style. Featuring durable fiberglass construction, these popular shingles provide economical, reliable roofing protection and class A fire resistance. TAMKO 20- or 25-year limited warranty and a 10-year algae relief - algae cleaning limited warranty.

## BUILDING PRODUCTS

### KEY FACTS:

Founded in 1944, TAMKO Building Products, Inc. is:

- A privately held company dedicated to roofing and building products.
- A company that's experienced solid growth every year since 1960.
- The third largest asphalt roofing products manufacturer in America, producing complete product lines for commercial and residential roofing, cements and coatings, waterproofing, decking and railing.
- A company whose products are made in state-of-the-art plants across the country: Joplin, MO; Tuscaloosa, AL; Frederick MD; Phillipsburg, KS; Dallas, TX; Chilhowie, VA; Knoxville, TN; Jacksonville, FL; Naples, TX; Ennis, TX; Columbus, KS; Butler, AL; and Lamar, MO.
- A company with an advanced customer service system to ensure that customers receive what they order when they need it.
- A company that reinvests its profits in new manufacturing equipment and research and development.
- A company that supports customers through a network of knowledgeable sales and technical service representatives as well as information services via a phone call, fax machine, or a visit to our home on the web.
- A company that offers mixed truckload orders of a full line of residential and commercial roofing products, cements and coatings, ventilation products, above- and below-grade waterproofing membranes, and railing products.

## SHINGLE STARTER

### UNIVERSAL STARTER COURSE

Shingle Starter is a precut (7"x36") universal starter course shingle designed to eliminate the wasted time and material of field cutting 3-tab or roll roofing materials into starter course shingles. Shingle Starter also comes with a factory-applied sealant to eliminate the need for plastic cement. The finished installation is quicker and easier, and provides a better starter course shingle to get the job started right.

## TW MOISTURE WRAP & TW FLASH-N-WRAP®

### ABOVE-GRADE MOISTURE/AIR BARRIER MEMBRANE

Used for sealing window and door perimeters, wall-to-wall tie-ins, and cavity walls.

**TW Moisture Wrap** is a 40-mil self-adhering rubberized asphalt sheet membrane with a polymer film surface and a removable treated release film on the adhesive side.

**TW Flash-N-Wrap 25** is a 25-mil-thick flexible self-adhering rubberized asphalt sheet membrane with a reflective aluminum surface and a removable treated release on the adhesive side.

**TW Flash-N-Wrap 40** is a 40-mil version.

## TAMKO ROLL VENT

### CONTINUOUS RIDGE VENT

A self-contained ridge vent product, made of a nylon-polyester and compression-resistant open matting in three-dimensional construction to provide a stiff nail area. Roll Vent is lightweight, quick and easy to cut, and requires no special tools for installation. Provides 18 square inches of net free area (NFA) per linear foot when used with an equal or greater amount of soffit ventilation.

## TAMKO RAPID RIDGE

### NAIL GUN-ABLE CONTINUOUS RIDGE VENT

Rapid Ridge® is a self-contained nail gun-able ridge vent product, made of a nylon-polyester compression-resistant open matting in three dimensional construction to provide a stiff nail area. Rapid Ridge® is lightweight, quick and easy to cut, and installs fast using a pneumatic roofing nail gun. Provides 12.5 square inches of net free area (NFA) per linear foot when used with an equal or greater amount of soffit ventilation.

## TAMKO COOLRIDGE®

### SECTIONAL RIDGE VENT

CoolRidge is a self-contained 4-foot sectional shingle over ridge vent designed to help remove heat and warm moist air out of the attic. CoolRidge is an injection-molded polypropylene product that features an external integrated end plug located every foot to reduce scrap when splicing. Provides 18 square inches of net free area (NFA) per linear foot when used with an equal or greater amount of soffit ventilation.

## TAMKO MOISTURE GUARD PLUS®

### ICE & RAIN PROTECTIVE UNDERLAYMENT

Moisture Guard Plus is a self-adhering modified bitumen underlayment sheet for prevention of water penetration caused by wind-blown rain or ice damming. Use on roof decks as a waterproofing underlayment; at rakes, eaves, valley and ridges. Moisture Guard Plus is a self-adhering membrane that features a strong fiberglass mat, SBS-modified asphalt, split plastic release film, and fine mineral surfacing for enhanced skid resistance. Adheres directly to plywood roof decks.

## TAMKO® TW METAL & TILE UNDERLAYMENT

TAMKO TW Metal and Tile Underlayment is a flexible self-adhering rubberized asphalt sheet membrane with a polymer film on the surface and a removable silicone-treated release sheet on the adhesive side. Used for application under metal and tile roofs where prevention of water penetration is required. Textured surface provides enhanced skid resistance. Split plastic release film for easier installation. High temperature resistance up to 250°F.

## TAMKO UNDERLAYMENT FELTS

TAMKO offers a complete line of saturated organic felt roll roofing products, including Nail Fast® Premium Utility Underlayment. Its SBS-modified construction provides added flexibility and durability. Use as a valley underlayment or in high-traffic roof areas.
