

SELF-ADHERING ROOFING SYSTEMS

LIBERTY™

SBS Self-Adhering Roofing System

Liberty® Self-Adhering Roofing Systems provide long-lasting protection for the low-slope areas of your property without the danger or hassles associated with conventional roofing products.

Advantages:

- **Safer...**Self-adhering Liberty systems eliminate the need for torches, open flames, hot asphalt, or messy solvent-based adhesives.
- **Easy To Install...**Liberty systems can be installed easily and quickly by a small roofing crew and without the hassles of bulky equipment or unpleasant odors.
- **No Fumes...**Unlike conventionally-applied systems, eliminates the fumes and odors caused by hot asphalt or solvent-based adhesives
- **Proven Technology...**Based on the same technology used in GAF's commercial roofing systems-proven in the field for decades!
- **Great Guarantee...**Free ltd. warranty against material defects for up to 15 years
- **Extended Guarantee Available...**Labor and Material Guarantees and Limited Product Warranties available for both commercial and residential applications
- **Peace Of Mind...**Backed by GAF Materials Corporation, North America's largest roofing manufacturer
- **Full System Options...**Liberty MA 2 sq. mechanically attached base sheet, Liberty SA 2 sq. self adhering base/ply sheet, Liberty Self Adhering CAP Sheet 1 sq. (available in fire retardant version too) for two and three ply systems
- **Seven Popular Colors...**To complement your Timberline® or other residential shingle roof (Black, Hickory, Shakeswood, Slate, Tan, Weathered Wood, White)

LIBERTY™ EZ-INSTALLATION KIT

To Save Even More Time...

- **Convenient...**Perfect for small jobs, the Liberty EZ-Installation Kit contains 1-1Gallon can of Leakbuster™ Matrix™ 307 Premium Asphalt Primer and 4-11oz tubes of LeakBuster Matrix Premium SBS Flashing Cement.
- Also enclosed are simple to follow installation instructions and a CD that shows how the Liberty™ self-adhering membranes are installed. Just enough primer and adhesive for a typical 2 square project.

LOW-SLOPE
