

## POLYGLASS® provides solutions with ADESO® Technology.

ADESO® Technology is a revolutionary concept of manufacturing dual compound Self-Adhesive membranes using a "true" APP, SBS or TPO formulation on the top weathering side and an aggressive Self-Adhesive formulation on the bottom side of the reinforcement.

## POLYGLASS® SA Self-Adhesive Membranes with ADESO® Technology

- ELASTOFLEX SA V
- ELASTOFLEX SA P
- POLYFLEX SA P

**Clean and neat application**

- No asphalt bleed-out
- No mess caused by hot mopping or torching
- No empty cans to dispose off

**Ecologic odorless**

- Environmentally friendly!
- No more fumes, odors and noise.

**Safe Applications**

SA Self-Adhesive membranes with ADESO® Technology eliminate need for torching or mopping, i.e., no open flame on your roof.

*Adds value!*
