

## FEATURED PRODUCTS

### AWAPLAN — High Performance SBS Modifieds

The industry's first and finest SBS-modified polyester roll roofing. AWAPLAN products set the industry standard for strength and performance. AWAPLAN products are available in three levels of performance to meet most budgets. And AWAPLAN products come with a variety of application options including hot asphalt-, heat weld-, and cold-process-applications. Awaplan FR (fire-rated) membranes are capable of providing U.L. Class A protection without the use of a coating. Each Awaplan product is backed by a TAMKO 10-, 12-, or 15-year limited product warranty.

#### Premium Grade Products

AWAPLAN PREMIUM FR  
AWAPLAN PREMIUM  
AWAPLAN HEATWELDING

15-year Limited Warranty

#### Medium Grade Products

AWAPLAN 170 FR  
AWAPLAN 170  
AWAPLAN VERSA-SMOOTH

12-year Limited Warranty

#### Fighting Grade Products

AWAFLEX® FR  
AWAFLEX  
AWAPLAN VERSAFLEX

10-year Limited Warranty

AWAPLAN – More than 30 Years Strong

### KEY FACTS:

Founded in 1944, TAMKO Building Products, Inc. is:

- A privately held company dedicated to roofing and building products.
- A company that's experienced solid growth every year since 1960.
- The third largest asphalt roofing products manufacturer in America, producing complete product lines for commercial and residential roofing, cements and coatings, waterproofing, decking, and railing.
- A company whose products are made in state-of-the-art plants across the country: Joplin, MO; Tuscaloosa, AL; Frederick, MD; Phillipsburg, KS; Dallas, TX; Chilhowie, VA; Knoxville, TN; Jacksonville, FL; Naples, TX; Ennis, TX; Columbus, KS; Butler, AL; and Lamar, MO.
- A company with an advanced customer service system that ensures customers receive what they order when they need it.
- A company that reinvests its profits in new manufacturing equipment and research and development.
- A company that supports customers through a network of knowledgeable sales and technical service representatives as well as information services via a phone call, fax machine, or a visit to our home on the web.

## TAMKO® Fiberglass and Organic-Reinforced Base Sheets

TAMKO's fiberglass base sheets feature a TAMKO fiberglass mat, weathering-grade asphalt coating, and are certified to meet ASTM, UL and FM requirements. Choose either TAMKO Glass-Base® heavyweight base sheet for general use or VAPOR-CHAN® heavyweight venting base sheet for use over gypsum and lightweight concrete decks. TAMKO 43 Coated Base Sheet is a premium organic base sheet for use over wood decks or as a vapor retarder when set in hot asphalt.

## TAMKO SBS-Modified Base Sheets

A variety of base sheets to chose from — all TAMKO tough and useful for installation with TAMKO AWAPLAN SBS-Modified Membrane Systems or a TAMKO Built-Up Roofing System. Suitable for use as a nailed base over a wood deck or mopped down over insulation.

## TAMKO Fiberglass Ply Sheets

These quality TAMKO fiberglass ply sheets meet ASTM D-2178 and NBS requirements: Tam-Ply IV® (for Type IV) and Tam-Glass Premium® (for Type VI). Both sheets are constructed with TAMKO heavyweight fiberglass mat and are coated with weathering-grade asphalt. The final surface of the roofing system can be finished with gravel, smooth, or with a cap sheet.

## TAMKO-PRO® Cements and Coatings Products

A complete line of professional-grade, 100% asbestos-free cements and coatings products for use in a variety of roofing and waterproofing applications. Line includes SBS-modified adhesives and flashing cements, primers, plastic cements, aluminums, and more.

## TAMKO Waterproofing Products

A complete line of Waterproofing products, including the TW-60 Sheet Waterproofing Membrane System, TW Moisture Wrap and TW Flash-N-Wrap® Membranes, horizontal protection course, TW-Thru-Wall Flashing Membrane, primers and mastics.

## TAMKO Cements and Coatings Products

TAMKO cements and coatings products are 100% asbestos-free and feature plastic roof cements, wet or dry surface cements, TAM-SEAL roof patch sealants, asphalt roof and foundation coatings, aluminums, and Hard Drive driveway sealers.

## TAMKO Brand White Cements and Coatings Products

Made from quality materials. Provides protection from harmful ultraviolet and infrared radiation. The coatings feature highly reflective surfaces to lower roof and interior temperatures.

## AWAPLAN PREMIUM FR

Fire-resistant SBS-modified asphalt roll roofing, granule-surfaced.

- Reinforced with a 250 g/m<sup>2</sup> nonwoven polyester mat saturated with asphalt and coated on both sides with SBS rubber FR modified asphalt and surfaced with ceramic granules for protection from ultraviolet degradation.
- Packaged: 33'11" x 39-3/8" rolls/101 lb.
- Coverage: 1 square.
- Application method: Hot asphalt, torch applied, cold applied.

## AWAPLAN PREMIUM

SBS-modified asphalt roll roofing, granule-surfaced.

- Top-of-the-line Awaplan product features a 250 g/m<sup>2</sup> nonwoven polyester mat saturated with asphalt and coated on both sides with SBS-modified asphalt. Exhibits tremendous elasticity and strength with superior resistance to thermal shocks and punctures. Suitable for flashing as well as field roofing.
- Packaged: 33'11" x 39-3/8" rolls/101 lb.
- Coverage: 1 square.
- Application method: Hot asphalt, torch applied, cold applied.

## AWAPLAN HEAT WELDING

Modified asphalt roll roofing, granule-surfaced.

- Premium-grade product featuring a 250 g/m<sup>2</sup> nonwoven polyester mat saturated with asphalt and coated on both sides with SBS-modified asphalt. Exhibits tremendous elasticity and strength with superior resistance to thermal shocks and punctures. Suitable for flashing as well as field roofing.
- Packaged: 25'5" x 39-3/8" rolls/94 lb.
- Coverage: 3/4 square.
- Application method: Torch applied, hot asphalt, cold applied.

## AWAPLAN 170 FR

SBS-modified asphalt roll roofing, granule-surfaced.

- A 180 g/m<sup>2</sup> polyester mat saturated with asphalt and coated on both sides with fire-resistant SBS-modified asphalt. Available in mop grade, Awaplan 170 FR exhibits tremendous elasticity and strength with superior resistance to thermal shocks and punctures. Suitable for flashing as well as field roofing.
- Packaged: 33'11" x 39-3/8" rolls/96 lb.
- Coverage: 1 square.
- Application method: Hot asphalt and cold applied.

## AWAPLAN 170

SBS-modified asphalt roll roofing, granule-surfaced.

- Medium-weight Awaplan 170 consists of a 180 g/m<sup>2</sup> polyester mat saturated with asphalt and coated on both sides with SBS-modified asphalt. Suitable for flashing as well as field roofing.
- Packaged: 33'11" x 39-3/8" rolls/96 lb.
- Coverage: 1 square.
- Application method: Hot asphalt or approved cold adhesive.

## AWAPLAN VERSA-SMOOTH

Polyester-reinforced SBS-modified.

- A smooth-surfaced version of Awaplan 170 with added SBS-modified asphalt back coating or torching applications with 180 g/m<sup>2</sup> mat.
- Packaged: 33'11" x 39-3/8" rolls/98 lb.
- Coverage: 1 square.
- Application method: Torch, hot asphalt, cold adhesive or mechanically fastening.

## AWAFLEX® FR

Lightweight, highly flexible SBS-modified cap sheet constructed with a nonwoven polyester mat.

- Roofing membrane features mat saturated with asphalt and coated on both sides with SBS rubber fire-resistant modified asphalt and surfaced with ceramic granules for protection from ultraviolet degradation.
- Packaged: 33' x 39-3/8" rolls/76 lb.
- Coverage: 1 square.
- Application method: Cold or hot process application.
- Available in white granule finishes.

## AWAFLEX®

Lightweight, highly flexible SBS-modified cap sheet constructed with a nonwoven polyester mat.

- Awaflex's mat is saturated with asphalt and coated on both sides with SBS-modified asphalt.
- Packaged: 33' x 39-3/8" rolls/76 lb.
- Coverage: 1 square.
- Application method: Hot asphalt or approved cold adhesive.
- Available in white or black granule finishes.

## AWAPLAN VERSAFLEX

Polyester-reinforced SBS-modified membrane for use as the base ply in 2-ply modified system specifications 204 and 204 FR and as a smooth-surfaced modified membrane in Series 1300 specifications.

- Packaged: 33'11" x 39-3/8" rolls/76 lb.
- Coverage: 1 square.
- Application method: Hot mopping and cold process applied.
